

**Curriculum Summary Report
November 2018**

Course Id	Title	CC Approval	Total Credit min	Total Credit max	Lecture min	Lecture max	Lab min	Lab max	Clinical min	Clinical max	Effective Term	Effective Year	Justification	Changes
New Courses														
3047	EMC 111 - Emergency Medical Technician Lab	11/5/2018					2.				Spring	2019	Separate out lab credits into additional 2 credit class to fully account for the number of hours to complete this certificate. Lab credits are moved to EMC 111.	New course
3062	RS 280 - Computed Tomography	11/5/2018			1.9		0.1				Spring	2019	Correlate didactic material with actual lab time with CT scanner. The didactic material will be shifted from another course where it was taught.	New course
3064	RS 290 - Radiography Registry Review	11/5/2018			2.						Spring	2019	Registry reviews have been a proven benefit to ensure success for students taking their comprehensive exams at the end of their program.	New course
Modified Courses														
3018	DMS 101 - Sonography Lab I	11/5/2018	2.				2.				Winter	2019	<p>Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members.</p> <p>Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations.</p> <p>No changes were made to prerequisite courses, course content or course descriptions.</p> <p>Please see attached document with revised course objectives and course sequencing information.</p>	Only changes are CLO updates
3019	DMS 102 - Sonography Lab II	11/5/2018	3.				3.				Winter	2019	<p>Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members.</p> <p>Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations.</p> <p>No changes were made to prerequisite courses, course content or course descriptions.</p> <p>Please see attached document with revised course objectives and course sequencing information.</p>	Only changes are CLO updates
3020	DMS 103 - Sonography Lab III	11/5/2018	2.				2.				Winter	2019	<p>Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members.</p> <p>Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations.</p> <p>No changes were made to prerequisite courses, course content or course descriptions.</p> <p>Please see attached document with revised course objectives and course sequencing information.</p>	Only changes are CLO updates
3021	DMS 105 - Ultrasound Cross-Sectional Anatomy	11/5/2018	5.		4.		1.				Winter	2019	<p>Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members.</p> <p>Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations.</p> <p>No changes were made to prerequisite courses, course content or course descriptions.</p> <p>Please see attached document with revised course objectives and course sequencing information.</p>	Only changes are CLO updates
3022	DMS 110 - Pathophysiology I	11/5/2018	3.		3.						Winter	2019	<p>Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members.</p> <p>Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations.</p> <p>No changes were made to prerequisite courses, course content or course descriptions.</p> <p>Please see attached document with revised course objectives and course sequencing information.</p>	Only changes are CLO updates

3041	DMS 261 - Ultrasound Seminar and Critique III	11/5/2018	2.		2.						Winter	2019	Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members. Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations. No changes were made to prerequisite courses, course content or course descriptions.	Only changes are CLO updates
3043	DMS 270 - Sonography Registry Review	11/5/2018	2.		2.						Winter	2019	Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members. Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations. No changes were made to prerequisite courses, course content or course descriptions.	Only changes are CLO updates
3044	DMS 299 - Clinical Independent Study	11/5/2018	3.	13.					3.	13.	Winter	2019	Based on our recent JRC-DMS accreditation review, (April 2018), and verbiage contained within the general sonography concentration CAAHEP standards, the DMS program revised the course objectives for all DMS didactic and clinical courses. The new objectives adhere to the CAAHEP and JRC-DMS standards and is more explicit in outlining expected student outcomes within the courses. Several courses are in sequence and were amended to further define the gradual increase in student performance and expectations. Proposed changes were discussed within our spring quarter advisory meeting and supported by committee members. Prior to the changes, there were some ambiguity in identifying exact areas where students were failing to meet course objective due to the broadness of the objectives. The revisions will allow DMS faculty to better specify student challenges and performance expectations. No changes were made to prerequisite courses, course content or course descriptions.	Only changes are CLO updates
2891	EAP 085 - Introduction to Reading, Writing, & Grammar	11/5/2018	15.		15.		0.	0.			Summer	2019	Changing the number of credits from 14 to 15 to match the three AESL courses that EAP 85 is paired with, which are all 15 credits: AESL 11, AESL 12, and AESL 13.	Increasing credits from 14 credits to 15 credits
2890	EAP 095 - Reading, Writing, & Grammar I	11/5/2018	15.		15.						Summer	2019	Changing the number of credits from 14 to 15 to match the three AESL courses that EAP 95 is paired with, which are all 15 credits: AESL 11, AESL 12, and AESL 13.	Increasing credits from 14 credits to 15 credits
3046	EMC 110 - Emergency Medical Technician Basic	11/5/2018	10.		10.		0.				Spring	2019	Separate out lab credits into additional 2 credit class to fully account for the number of hours to complete this certificate. Lab credits are moved to EMC 111.	Change lecture credit from 9 to 10 and lab credit from 1 to 0. New co-requisite. Grading to Letter Grade Only
2687	ENGL/085 - Academic Reading and Writing I: Foundations	11/5/2018	7.	10.	7.	10.					Summer	2019	ABE courses 074, 075, 077, 078 and 079 should be cross-listed with this course so there is more fluid alignment between Dev-Ed and ABE. It also allows ABE students to move toward college credit classes faster. {These courses are already cross-listed. This proposal includes an updated Catalog Description.}	update Catalog Description.
2630	ENGL/095 - Academic Reading and Writing II: Threshold	11/5/2018	7.	10.	7.	10.					Summer	2019	Changes need to be made to the outdated course catalogue description for this class so it reflects our new outcomes.	update Catalog Description.
3049	HIM 310 - Data Governance	11/5/2018	5.		5.						Fall	2019	Correction to pre-requisites	Change prerequisite to "Acceptance into the HIM BAS Program - Instructor Permission Only"
3051	HIM 320 - Healthcare Privacy, Confidentiality, and Security	11/5/2018	3.		3.						Fall	2019	Correction to pre-requisites	Change prerequisite to "Acceptance into the HIM BAS Program - Instructor Permission Only"
3050	HIM 330 - Revenue Cycle Management	11/5/2018	5.		5.						Fall	2019	Correction to pre-requisites	Change prerequisite to "Acceptance into the HIM BAS Program - Instructor Permission Only"
3053	HIM 350 - Health Information Systems Analysis and Design	11/5/2018	5.		5.						Fall	2019	Correction to pre-requisites	Change prerequisite to "Acceptance into the HIM BAS Program - Instructor Permission Only"
3054	HIM 420 - Human Resource Management and Leadership	11/5/2018	5.		5.						Fall	2019	Correction to pre-requisites	Change prerequisite to "Acceptance into the HIM BAS Program - Instructor Permission Only"
3056	HIM 430 - Data Analytics	11/5/2018	5.		5.						Fall	2019	Correction to pre-requisites	Change prerequisite to "Acceptance into the HIM BAS Program - Instructor Permission Only"
3055	HIM 440 - Organizational Management in Healthcare	11/5/2018	5.		5.						Fall	2019	Correction to pre-requisites	Change prerequisite to "Acceptance into the HIM BAS Program - Instructor Permission Only"
2898	NURS 101 - Health & Illness Level 1	11/5/2018	2.		2.		0.	0.			Spring	2019	In response to a state requirement to adopt the Associate in Nursing DTA/MRP degree, the program is revising a number of courses to fit the requirements of this degree. Some content from this course needed to move to another course, hence the decrease in credits.	
2902	NURS 102 - Health & Illness Level 2	11/5/2018	5.		5.		0.	0.			Fall	2019	In response to a state requirement to adopt the Associate in Nursing DTA/MRP degree, the program is revising a number of courses to fit the requirements of this degree. Content was added to this course necessitating the increase in credits.	
2903	NURS 103 - Health & Illness Level 3	11/5/2018	3.		3.		0.	0.			Winter	2020	In response to a state requirement to adopt the Associate in Nursing DTA/MRP degree, the program is revising a number of courses to fit the requirements of this degree. The content and credits for this course have been reduced to allow for course structure required by the degree.	
2900	NURS 115 - Skills and Assessment Lab I	11/5/2018	2.				2.
