BIOL 140		Min Credits	Min Hours	2014	Marine currently is
Marine Biology	Lecture:	4.00	44.00	Fall	officially 3 contact hrs of lecture and 4 contact hrs of Lab. For the last few years it has been taught as a 6 contact hour
	Lab:	1.00	22.00		lecture/lab course (4+2) in contradiction to approved curriculum. We have found that the 6 hour version results in equivalent student learning but is easier to schedule for students and faculty so we want to make the current practice official. As this is being taught in Fall 2014 having
